**RED STAG HUNT  
HUNGARY 2019**

**[WWW.PREMIUM-JAGDREISEN.DE](http://WWW.PREMIUM-JAGDREISEN.DE)**

# IN THE LAND OF THE MAGYARS

Since 2004, Hungary is a member state of the European Union. This has led to considerable relief for us hunters. There are no border controls, the carrying of weapons is easy and there are hunting grounds and game at affordable prices nationwide. The Hungarians have a centuries-long hunting tradition and education and their hunting law is based in essential points on the German hunting law. Hunting ethics and customs care are very important.

Hungary offers many hunting opportunities. Let's start with the heavy and powerful red deer in the south of the country. The famous meadow deer grow there, live weights of well over 200 kg are common, especially before the rut. There are many famous names: Gemenc, Labod, Karapanca and many more. If you are interested in a very strong red stag of 10 kg and more, you should choose one of the areas in the south of the country. The rut begins very early and reaches its peak around the 12th of September. It is important to book early, because during the main rutting time there are not always free places to get.

Of course, not everyone wants to shoot a stag of 10 kg and that's why we looked for suitable red deer territories in the country and also found. We have

been sending guests there for many years and it is the absolute exception that someone comes home without success.

So there are areas in the west of the country, where the shootable stags carries maybe 5 kg or 6 kg on the head. In the north of the country there are wonderful hunting areas, for example in the Bükki Mountains. And around the Balaton (Lake Balaton) you can hunt in about two dozen different hunting areas, to which we have excellent contacts. Tell us your wishes regarding the desired antler weight and if you prefer to stalk or sit. Do you prefer a hunt in the plain or do you love the strenuous mountain hunt? We certainly have the 'suitable area' for you and there is something for every budget.

The most promising time is during the rut. When the bellowing of the stags echoes and the rutting action takes place in front of you, those are moments you will never forget. Attracting a bellowing rutting deer by calling him is supreme hunterous lust and one of the most exciting kind of hunting that can be offered to us hunters. But also for still hunting from a raised hide and for the hunter who is not so agile on his legs, we have the right areas.

# POINTS

## INTERNATIONAL POINTS RED STAG

170,00 - 189,99 CIC	Bronze
190,00 - 209,99 CIC	Silver
from 210,00 CIC	Gold

# ... THE STAG HUNTERS ARE COMING

The probably best known hunting country for red deer hunts is undoubtedly Hungary. Every year alone during the rutting several thousand guest hunters come to the land of the Magyars. Rightly so! Hardly any other country has such a high and, above all, good quality red deer population.

This is in the tradition of the country that strong deer and noble horses enjoy a high priority. And secondly, the Hungarian hunting laws, which demand a consistent implementation of the strict preserving and shooting guidelines. Woe to the professional hunter who lets a stag shoot too young. Even today he still has to expect at least disciplinary measures. But such faulty shots are rare. The Hungarian hunting company, trained in dealing with hunting guests and raised with game and forest, enjoys an excellent reputation worldwide. Anyone who deals with hunting literature will come across the hunt in Hungary again and again.

First of all, a few interesting facts about red deer. The total stock in Hungary is estimated at over 80.000 pieces (Germany: 180.000 pieces). Alone by guest hunters, mostly Germans and Austrians, thousands of red stags get harvested during the rut. For many red deer enthusiasts, rutting is the ultimate hunting joy and the time of yearning for rutting. If we look at the record lists of the CIC, one finds among the ten world's largest red deer five from Hungary. Although Hungary currently does not hold the world record, a 14.51 kg antler was rated with 271 CIC points. This deer was shot in the well-known highland area Karapanca. So far the strongest and officially recognized antler is a 16.81 kg trophy from the state forestry Labod. This deer was shot in 2001 and the trophy brought his hunter a certificate with registered 265.67 CIC points.

The series could be continued endlessly. But let's stop with the „Royals“. Especially in the weight class between 6 kg and 9 kg, there are beautiful areas all over the country where you can experience a great rutting. For many hunters, the antler weight is not in the main focus. The stag should be old and thus shootable. And we can offer you exactly those red deer hunts. The Hungarian red deer antler, in contrast to its Romanian cousins, normally has more ramifications (points). More than in any other hunting country you will find 18-pointer and also more in the statistics of the best red deer districts in Hungary. Now the tastes go apart. One likes strong and massive antlers, the other loves the 20-pointer and the third likes only a symmetrical antler. The only important thing is: The stag is old and the hunt has given pleasure!

- Jg. Zalavölgye - 5.500 hectare
- Jg. Kisbalaton - 6.000 hectare
- Jg. Hubertus - 12.000 hectare
- Jg. Szabadsag - 7.500 hectare

# ACCOMMODATION

## TOKAY WINE, GOULASH, PAPRIKA

During your stay you will live in a well-developed hunting lodge in the hunting district. Over the past 15 years, the Hungarian hunting management has invested a great deal of money in the construction or renovation of existing hunting lodges, and other houses have been completely rebuilt. Some like it rustic, the other loves the luxury. But there is something for every taste.

As far as the Hungarian cuisine is concerned, it is well known that the Magyars enjoy eating and drinking. There are delicious meat dishes, grilled or fried, side dishes of all colour and of course the wines from the Tokaj region. Let yourself be pampered and enjoy Hungarian specialties. Generally referred to as 'heavy food', it is always delicious. And one or two pounds more will certainly be lost in the hunt again.

One more note: we recommend arriving by car. Thanks to the well-developed road network, this is no longer a problem and has the advantage that you can take the trophy directly with you. Let us advise you on all points by our experienced and competent team. Our motto is: Hungary is always worth a hunting trip!

# DETAILS & PRICES
